Maribel Lein

Medical Research Regulatory Administrator

Let's Continue the Work We Started

Once again, I am submitting my name as member of the Board for 2027. We have during the last past years successfully implemented important changes in the administration of our HOA and many of those changes can be seen others have to do with the administration process itself.

The year before last our commitment was to" Make a Change" in the administration of our HOA. I am pleased with the work and effort provided by all the BOD team.

I need your vote with my pledge that we will Continue the Work We Started.

Let's Achieve the Goal. What is the main goal for this year? THE SEWER SYSTEM
