

I am submitting again my name in for election of the B.O.D of Lakeshore.

Some of the accomplishments since I have been on the Board of Directors are Spectrum TV with wi-fi, some new sewer lines, parking lot seal coating, a fire pit for the residents to enjoy, vegetable garden for the residents, replace old equipment for maintenance, repaired collapsed sidewalks, just to name a few.

The Board of Directors right now is working on a Federal Grant to redo all the sewer mains to save money to the owners.

Soon we are starting to repair our docks that give more value to our community.

I look forward to your support so I can as always do all I can to keep Lakeshore a great place to live.

Thank you,

Wayne Estes
