

Maribel Lein

Medical Research Regulatory Coordinator

RECEIVED
OCT 21 2025

Once again, I am submitting my name as Member of the Board 2026. We have successfully implemented important changes in the administration of our HOA, many of those can be seen others have to do with the administration process itself.

We have added office hours to facilitate and provide service to our community for the unit owners that are not able to reach office hours during the scheduled weekday. This has benefited the community and visitors that enter the office for information about our development.

Last year our commitment to the community was to "Make a Change" in the administration of our HOA. I am pleased with the work and effort provided by all our Board of Directors 2025 Team. It has been an honored to work and provided our talent and expertise to this community for the best interest of Lakeshore Club Villas.

I need your vote with my pledge that we will continue to work together.

Let's Continue with the Change!
